

The newsletter from Angel Business Improvement District

NEWS - May / June 2019

Welcome to the latest newsletter from [angel.london](#)

As summer arrives we want to ensure that the Angel is as clean, bright and colourful as possible.

In this respect, in this month's newsletter we highlight just some of the many ways we are doing this, from street bunting to new litter bins. Here at [angel.london](#) we are champions of the environment, so we are delighted to have been involved in the installation of a public fresh water fountain on Islington Green - see below for details.

We also strive to ensure that all BID levy payers have an opportunity to voice their views and steer the work of [angel.london](#). One important way of doing this is to participate in our independent Annual Business Survey. If you have not completed a hard copy questionnaire distributed by our appointed research company, please see the story below to see how you can still participate. We are keen to get as many responses as possible.

Finally, we are also delighted to highlight the new business openings, events and corporate offers in the Angel.

With best wishes for the month ahead.

Click on the button below to download the survey, complete and email to mike.evans@theretailgroup.co.uk (please email direct to Mike to ensure confidentiality). BRIGHTER - Bunting is back for the summer... and hanging baskets are on their way.

We are delighted to have once again added a bit of extra colour to the Angel by installing bunting throughout Camden Passage for the summer months.

In addition to having bunting in Camden Passage, we are pleased to have worked with Islington Council to also hang bunting in Chapel Market for the first time this year. The colourful bunting will soon be joined by hanging baskets that will be installed throughout the BID area for the summer months.

CLEANER: New litter bins installed around the Angel

As part of our tireless efforts to keep the Angel clean, new litter bins have been installed in locations across the BID area.

The new bins, installed by Islington Council in conjunction with [angel.london](https://www.angel.london), offer a classic design with two separate sections, one for general litter and one for mixed recycling. Another great feature of the new bins is that they have an incorporated ashtray that encourages the public to dispose of cigarette butts in the correct way.

STRONGER – Subsidised mental health & wellbeing training programme for employers

In a rapidly changing marketplace, workforce wellbeing and resilience are increasingly recognised as key to business productivity, sustainability and readiness for change.

The Tavistock and Portman NHS Foundation Trust expert therapeutic team have developed **Add | Wellbeing**– a strategic approach to creating a Well Workplace. Government funding means that they are able to subsidise their offer for employers (up to 250 employees)...

As part of the Mayor of London's Drinking Fountain Fund, our very own Islington Green has got a brand new free fresh water fountain.

The new fountain (although to be honest its more of a fresh water dispenser) is located on the pavement at the northern entrance to the Green, almost opposite Waterstone's...
